

Professional Summary

M.Sc. Data Science graduate with strong foundations in data analysis, machine learning, and statistics. Skilled in Python, SQL, and Power BI with experience in building machine learning models and data-driven analytical dashboards. Seeking entry-level roles in Data Science, Machine Learning, or Data Analytics.

Technical Skills

Programming: Python (Intermediate), SQL

Data Analysis: Data Cleaning, EDA, Data Transformation

Machine Learning: Logistic Regression, Decision Trees, Random Forest, Model Evaluation

Statistics: Hypothesis Testing, Regression Analysis, Probability Distributions

Visualization: Power BI, Matplotlib

Tools: Pandas, NumPy, scikit-learn, MySQL, Jupyter, Git

Experience

W3AppDevelopers, Erode

Jan–Apr 2025

Data Science Intern

- Developed conversational workflows using Dialogflow ES for service automation.
- Designed intent-entity structures and integrated Twilio API for notifications.
- Assisted in testing and deployment of application modules.

ICMR – National Institute for Research in Tuberculosis, Chennai

2023

Applied Statistics Intern

- Performed data cleaning and exploratory analysis on clinical datasets.
- Conducted hypothesis testing and regression analysis using Python.

Projects

Hospital Readmission Prediction

2024

- Built a machine learning model to predict hospital readmissions.
- Performed preprocessing, feature selection, and model evaluation.

Superstore Sales Dashboard – Power BI

2025

- Developed an interactive dashboard analyzing sales and regional performance.
- Created KPIs and visual insights for business decision-making.

Customer Churn Prediction

2025

- Built and compared classification models (Logistic Regression, Random Forest) to predict customer churn.
- Performed EDA and identified key factors influencing churn.

Education

SASTRA Deemed University

2023–2025

M.Sc. Data Science

CGPA: 8.9

Justice Basheer Ahmed Sayeed College for Women

2020–2023

B.Sc. Statistics

CGPA: 9.1

Certifications

- Python Development and Python Programming Fundamentals – Udemy
- Google Analytics for Beginners – Google
- NPTEL: Understanding Incubation and Entrepreneurship
- PowerBi Certification – Microsoft
